Now more than ever: Buy union-made cars and trucks

The UAW's 2011 Vehicles Guide

JIM WEST

These vehicles are made in the United States or Canada by members of the UAW and Canadian Auto Workers (CAW).

Because of the integration of United States and Canadian vehicle production, all the vehicles listed that are made in Canada include significant UAW-made content and support the jobs of UAW members.

However, those marked with an asterisk (*) are produced in the United States and another country. The light-duty (LD) crew cab versions of the vehicles marked with a double asterisk (**) are manufactured only in Mexico; other models are made in the United States. When purchasing one of these models, check the Vehicle Identification Number (VIN). A VIN beginning with "1," "4" or "5" identifies a U.S.-made vehicle; "2" identifies a Canadian-made vehicle.

Not all vehicles made in the United States or Canada are built by union-represented workers. Vehicles not listed here, even if produced in the United States or Canada, are not union made.

UAW CARS
